

Skin Analysis Report

Generated: May 22, 2026 03:57 PM

Detected Skin Type: Dry

Confidence score: 77%

Analysis Summary:

Your skin is likely dry and may feel tight or flaky. The focus should be on replenishing moisture, restoring the skin barrier, and avoiding harsh ingredients.

Recommended Products:

- Hyaluronic acid serum
- Rich emollient moisturizer
- Gentle cream cleanser
- Daily sunscreen with hydrating finish

Suggested Skincare Routine:

- Use a creamy cleanser that does not strip natural oils.
- Apply hyaluronic acid serum on damp skin, then seal with moisturizer.
- Use sunscreen every morning to prevent moisture loss.
- Consider a night cream or facial oil for extra hydration.

What to Avoid:

- Soaps and cleansers with sulfates
- Very hot water during cleansing
- Alcohol-based toners and products
- Skipping sunscreen, which can worsen dryness
